Web Developer | Project Manager

Driven web developer with expertise in JavaScript, HTML, CSS, and modern frameworks including Bootstrap, jQuery, and Webpack. Experienced in project management with a proven record of meeting project milestones, fostering team productivity, and delivering user-friendly web solutions. Strong technical skills backed by hands-on projects and a commitment to continuous learning and adaptation in the tech space.

WORK EXPERIENCE

King's Cyber Cafe • Remote • September 2023 - June 2024

Project Manager

- Directed project planning, task assignments, and timeline management for technical and development-focused initiatives.
- Coordinated team progress, compiled project deliverables, and ensured alignment with project milestones and company goals.
- Maintained project documentation and adapted plans to address challenges, supporting team productivity in dynamic project settings.
- Promoted a productive and positive work environment

Adroitsoft Nigeria Limited • Ogba, Lagos • July 2023 - October 2023

Web development Intern

- Developed skills in web development and design
- Developed responsive and interactive web pages, collaborating with other junior developers to deliver client-centric solutions.
- Gained proficiency in JavaScript, HTML, CSS, and Bootstrap, and used Git/GitHub for version control and collaborative coding.
- Troubleshoot and resolved website issues, conducted usability testing, and gathered feedback to enhance the user experience.

Cisco • February 2021 - December 2021

CISCO Networking Academy Trainee

- Built foundational skills in Python and collaborated with senior developers on networking and programming basics.
- Attended networking sessions to develop essential technical proficiencies.

EDUCATION

Bachelor of Science in Computer Science and Technology

Crawford University • Ogun state, Nigeria • November 2020 - November 2024

Primary School leaving certificate

Ezekiel International College • Lagos, Nigeria

CERTIFICATIONS

HTML, CSS, BOOTSTRAP AND GITHUB Completion Certificate

Adroitsoft Computer Education

Python Essentials programming completion certificate

CISCO Networking Academy

NDG Linux Essentials programming completion certificate

CISCO Networking Academy

JAVASCRIPT Completion Certificate

Adroitsoft Computer Education

PROJECTS

Sudoku Game • October 2024

- Developed core functionality for a Sudoku game using JavaScript, including grid generation, validation, and solution algorithms.
- Integrated a user-friendly interface with HTML, CSS, and JavaScript, and optimized performance for a seamless experience.

Memory Game • October 2024 - Present

- Created an interactive memory card game with JavaScript, using animations and state management to track and reset game rounds.
- Created a visually appealing and responsive layout, ensuring the game functions properly across various screen sizes and devices for optimal playability.

Pig Dice • September 2024

- Built the Pig Dice game logic in JavaScript, implementing turn-based rules, dice rolls, and win conditions.
- Designed a responsive UI for gameplay using HTML and CSS, allowing users to interact easily with the dice rolls and score display.
- Refactored the code to follow a modular structure, improving readability and maintainability.

Bank Account • August 2024

- Developed functions to manage deposits, withdrawals, and balance inquiries, simulating real-life bank account operations.
- Integrated a history feature to track user transactions, ensuring transparency and accountability within the system.
- Added input validation and error handling to ensure proper data entry, preventing invalid operations.

Animal Shelter (Clone) • July 2022

- Cloned the website structure and layout, focusing on showcasing animals available for adoption through a clean, organized interface.
- Ensured the website was mobile-friendly and responsive across different devices, improving user experience.
- Accurately replicated key website features such as animal profile listings and donation options, making the clone functional and visually similar to the original.
