

EMMANUEL OKPIAIFO

Frontend Developer (React & WordPress) | Web Platform & Digital Product Builder

Lagos, Nigeria | emmaokpiaifo@gmail.com | 09160852509 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Frontend Developer with 2+ years building production React applications and managing enterprise WordPress ecosystems for organizations partnered with Google DeepMind, Meta, Raspberry Pi Foundation, GIZ, UNDP, LSETF, and Mastercard Foundation. Shipped a full SME growth platform end-to-end, React frontend, CMS, Flutterwave payments, and AI chatbot, currently supporting 20+ daily content uploads and 98%+ platform uptime, alongside an LMS, multiple campaign platforms, and workflow automations (Google Sheets, Supabase, Zoho). Comfortable owning a build from architecture through deployment and post-launch optimization.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), React.js, HTML5, CSS3, Bootstrap, jQuery

Backend & Integrations: Supabase, Flutterwave API, REST APIs, Google Apps Script, Webhook automation (Zoho Campaigns)

CMS & Platforms: WordPress (Elementor), custom CMS development, LMS build & deployment, PWA fundamentals

Tools: Git, GitHub, Webpack, Chrome DevTools, cPanel, Google Analytics, Notion, Zoho Workplace, Slack

Hosting & Deployment: GitHub Pages, Syskay, Namecheap, IONOS, Apache shared hosting / DNS troubleshooting

Core Competencies: Responsive design, performance optimization, SEO, cross-browser compatibility, UI/UX QA, accessibility, debugging

WORK EXPERIENCE

Technology Associate

Feb 2026 – Present

NerdzFactory Company — Lagos, Nigeria (Hybrid)

- Own uptime, SEO, and feature delivery across the organization's corporate web platforms (nerdzfactory.co, nerdzfactory.org), maintaining 98%+ monthly uptime and shipping new pages — including the Call for Media Partners page — with expanded SEO meta descriptions to improve search visibility.
- Designed, built, and deployed the BizGrowth Africa digital ecosystem (bizgrowthafrica.com) using React: News Website with Google Analytics, a CMS (admin.bizgrowthafrica.com) supporting 20+ daily content uploads, a Network page with Google Sheets data capture, a Pricing page with Flutterwave payment integration, and the Scaleup Grant page.
- Led Phase 1 deployment and testing of an AI chatbot on the BGA platform to support user engagement and self-service navigation.
- Provide technical support across internal systems and deployed platforms, acknowledging issues within 1 working hour and resolving 80%+ within 24 hours.
- Support the Communications team in publishing 4+ SEO-optimized blog/news items monthly across [www.nerdzfactory.co/news](#), [www.nerdzfactory.co/blog](#), and [www.nerdzfactory.org/opportunities](#).
- Built the Talentry waitlist landing page (waitlist.talentry.com.ng) with automated Google Sheets data capture; diagnosed and resolved a DNS/browser-cache issue affecting production access on Apache shared hosting (Syskay).
- Configured and deployed the DesignU LMS (designu.io/courses) with full course structure and content upload, supporting a GIZ/LSETF-partnered training program.
- Built automated data-capture and routing workflows via Google Sheets (membership/newsletter lists, admin panel) and implemented Supabase user authentication.
- Implemented a cookie consent system and privacy policy across BGA and corporate web platforms for data protection compliance; maintain version-controlled documentation and backups across all platforms via GitHub ([github.com/orgs/NerdzFactory-Company](#)).
- Continue to build and ship webpages for ongoing national partnership initiatives — including Experience AI (Google DeepMind & Raspberry Pi Foundation), SafeOnline (Meta), and the Employee Innovation Fund — across multiple campaign, application, and event pages.

Technology and Design Intern

Mar 2025 – Jan 2026

NerdzFactory Company — Ogudu, Lagos

- Led frontend development of public-facing WordPress (Elementor) websites for national and international partnership initiatives, including the Experience AI Nigeria landing page (Google DeepMind & Raspberry Pi Foundation) and the SafeOnline Youth Ambassador platform (Meta).
- Supported the Experience AI national rollout, helping reach 150,000+ students and 3,150+ teachers across Nigeria.
- Delivered communications and media support across flagship programs (Experience AI launch, SafeOnline, Young Africa Innovates/UNDP, Safer Internet Day, DDM School final events).
- Migrated company-wide email systems from Roundcube to Zoho Workplace, improving security and administrative control.
- Ran UI/UX QA reviews and shipped feedback-driven improvements across campaign and application pages.

Web Developer Intern

Jul 2023 – Oct 2023

Adroitsoft Nigeria Limited — Ogba, Lagos

- Built responsive, client-facing pages using HTML, CSS, and JavaScript; completed in-house certifications in JS, Bootstrap, and Git/GitHub collaboration.

Project Manager

Sep 2023 – Jun 2024

King's Cyber Cafe — Remote

- Directed project timelines and task management for digital initiatives; implemented streamlined collaboration workflows that improved team efficiency.

KEY PROJECTS

BizGrowth Africa — React Web Platform (www.bizgrowthafrica.com)

Dec 2025 – Present

- End-to-end build of a production React platform connecting African SMEs to business opportunities, resources, and digital tools — includes a CMS (admin.bizgrowthafrica.com), Flutterwave payments on the Pricing page, the Scaleup Grant page, an AI chatbot (Phase 1 live), and a dedicated News site with GA tracking.
- Impact: Central digital hub for SME growth initiatives, supporting 20+ daily content uploads, fully editor-managed post-launch.

DesignU LMS Implementation (WordPress)

Dec 2025 – Jan 2026

- Implemented and configured LMS functionality on an existing WordPress site, setting up user, course, and content management for program administrators.
- Impact: Scalable platform supporting youth digital-skills training under the GIZ/LSETF-partnered DDM School program.

Experience AI Nigeria Landing Page

- Built the national landing page for an AI literacy initiative in partnership with Google DeepMind and Raspberry Pi Foundation; fully responsive and accessible.
- Impact: Supported a rollout reaching 157,000+ students and 3,150+ teachers nationally.

DDM Program Website (GIZ & LSETF Partnership)

- Built responsive layouts and live update support across cohorts for NerdzFactory's Design & Digital Marketing School program.

YSEC Application Portal (Client Project)

May 2025 – Jun 2025

- Built multi-step validated forms on WordPress for a youth social enterprise competition, reducing application drop-off.

EDUCATION

BSc. Computer Science and Technology — Second Class Upper

Crawford University, Ogun State, Nigeria | Nov 2020 – Nov 2024

CERTIFICATIONS

- Python Essentials & Linux Essentials — Cisco Networking Academy (2021)
