

EMMANUEL OKPIAIFO

Web Developer (React & WordPress) | Digital Platforms & Product Delivery

Lagos, Nigeria | emmaokpiaifo@gmail.com | +234 916 085 2509 | [LinkedIn](#) | github.com/Emmanuel-Okpiaifo | [Portfolio](#)

PROFESSIONAL SUMMARY

Web developer shipping production React and WordPress platforms since 2023; built BizGrowth Africa end to end (20+ daily content uploads) and interfaces for the AfriVate Volunteer platform; now also runs people operations part-time at AfriVate. Open to roles in Nigeria: on site, hybrid or remote.

SKILLS

Frontend: JavaScript (ES6+), React.js, Tailwind CSS, HTML5, CSS3, Bootstrap

Backend & Integrations: Supabase, Flutterwave API, REST APIs, Google Apps Script, webhook automation (Zoho Campaigns)

CMS & Platforms: WordPress (Elementor), custom CMS development, LMS build and deployment

Tools: Git, GitHub, AI assisted development (Cursor), Chrome DevTools, cPanel, Google Analytics, Notion, Zoho Workplace, Slack

Hosting: GitHub Pages, Apache shared hosting, DNS troubleshooting

People & Operations: Recruitment and onboarding, performance appraisal design, HR documentation, internal communications

WORK EXPERIENCE

Technology Associate

Feb 2026 to Present

NerdzFactory Company | Hybrid

- Designed, built and deployed the BizGrowth Africa digital ecosystem (bizgrowthafrica.com) in React: a News website with Google Analytics, a CMS (admin.bizgrowthafrica.com) supporting 20+ daily content uploads, a Network page with Google Sheets data capture, a Pricing page with Flutterwave payment integration, and the Scaleup Grant page.
- Owned uptime, SEO and feature delivery across the corporate web platforms (nerdzfactory.co, nerdzfactory.org), maintaining 98%+ monthly uptime and shipping new pages, such as Call for Media Partners, with expanded SEO meta descriptions.
- Led Phase 1 deployment and testing of an AI chatbot on BizGrowth Africa to support user engagement and self service navigation.
- Provided technical support across internal systems and deployed platforms, acknowledging issues within 1 working hour and resolving 80%+ within 24 hours.
- Implemented cookie consent and a privacy policy across BizGrowth Africa and corporate platforms for data protection compliance; maintained version controlled documentation and backups via GitHub.
- Built and shipped campaign, application and event pages for national partnership initiatives, including Experience AI (Google DeepMind & Raspberry Pi Foundation), SafeOnline (Meta) and the Employee Innovation Fund.

AfriVate Technologies Ltd

Sep 2025 to Present

Human Resources Manager (Part-time, Remote)

Jun 2026 to Present

- Run people operations for a team of 12 across 4 teams, including setting up the company Slack workspace and leading the production of 20+ HR policies, templates and tools.
- Ran end to end hiring from 130+ applicants to 5 new contributors across 3 teams, and designed a performance appraisal framework for the whole team; the first cycle launches in October 2026.

Frontend Developer

Sep 2025 to Jun 2026

- Built responsive interfaces in React and Tailwind CSS for the AfriVate Volunteer platform (afriate.org), which connects African volunteers with organisations.
- Worked with backend developers and designers on the volunteer and organisation flows (opportunities, applications, profiles) and their REST API integration; tested and maintained the codebase.

Technology and Design Intern

Mar 2025 to Jan 2026

NerdzFactory Company

- Led frontend development of public facing WordPress (Elementor) websites for national and international partnership initiatives, including the SafeOnline Youth Ambassador platform (Meta).
- Built the national landing page for Experience AI Nigeria (Google DeepMind & Raspberry Pi Foundation), a programme that trained 1,142 teachers in its first year and targets 157,000 students and 3,150 teachers by December 2026.
- Migrated company email systems from Roundcube to Zoho Workplace, improving security and administrative control.
- Ran UI/UX QA reviews and shipped improvements based on user feedback across campaign and application pages.

EARLIER EXPERIENCE

Project Manager, King's Online Cyber Cafe (Remote, Part-time)

Aug 2023 to Jun 2024

Web Development Intern, Adroitsoft Nigeria Limited

Jul 2023 to Oct 2023

KEY PROJECTS

BizGrowth Africa | React Web Platform (www.bizgrowthafrica.com)

Dec 2025 to Present

- End to end React platform connecting African SMEs to opportunities, resources and digital tools (CMS, payments, grant page, AI chatbot, News site); supports 20+ daily content uploads and is fully managed by editors after launch.

DesignU LMS Implementation (WordPress)

Dec 2025 to Jan 2026

- Configured LMS functionality on an existing WordPress site (users, courses, content) for youth digital skills training under the DDM School programme, partnered by GIZ and LSETF.

DDM Programme Website (GIZ & LSETF Partnership)

- Built responsive layouts and provided live update support across cohorts for NerdzFactory's Design & Digital Marketing School programme.

YSEC (Youth Sustainable Enterprise Challenge) Application Portal

May 2025 to Jun 2025

- Built multistep validated application forms on WordPress for YSEC, a NerdzFactory youth enterprise programme.

Talentry Waitlist Page (waitlist.talentry.com.ng)

- Built the Talentry waitlist page with Google Sheets data capture; resolved a DNS and browser cache issue blocking production access on Apache shared hosting.

EDUCATION

BSc Computer Science and Technology | Second Class Upper

Nov 2020 to Nov 2024

Crawford University | Ogun State, Nigeria

CERTIFICATIONS

- Python Essentials & Linux Essentials, Cisco Networking Academy (2021)
